# Exceptional Knowledge, Local Service

ARCHER CRM Partnership provides consulting archaeological services for a wide variety of clients and industries across British Columbia. We have worked on oil & gas, forestry, mining, energy and infrastructure projects of various scales. We provide the following services:

- Archaeological Overview Assessments (AOA)
- Preliminary Field Reconnaissance (PFR)
- Archaeological Impact Assessments (AIA)
- Winter Archaeological Impact Assessments
- Culturally modified tree (CMT) inventories
- Archaeological mitigation & monitoring services
- Geographic Information Systems (GIS) mapping & data compilation
- GIS Archaeological Potential Modeling
- High quality map production & plotter printing
- X-Ray Fluorescence Laboratory
- Archaeological, historical, cultural & ethnographic research
- Archaeological collections analysis
- CMT increment core & stem-round-sample (SRS) analysis
- Independent reviews of archaeological documents such as permit applications, proposals, reports & policy statements.

We have offices in Fort St. John, Vanderhoof, Prince George, Burnaby, Fort Nelson and Terrace, BC, ready to serve your cultural resource management needs.
